I need to borrow money, where do I start?

How do lines of credit work?

Amalgamated Bank, the nation's leading progressive bank, today announced it has been admitted into the prestigious Global Alliance for Banking On Values (GABV), an international not-for-profit organization and independent network of banks and banking cooperatives with a shared mission to use finance to deliver sustainable economic, social and environmental development. Amalgamated joins the 40 other international financial institutions and strategic partners who seek to advance a better form of banking, one that's socially, economically and environmentally conscious.

"As the nation's most progressive bank, Amalgamated Bank is proud to join a growing group of like-minded and mission-driven financial institutions focused on making a positive impact in the world," said Keith Mestrich, President and CEO of Amalgamated Bank. "Restoring trust in the banking industry is one of our primary goals; by partnering and working together with the other GABV members we can learn, support and lead in this mission."

Collectively the GABV members serve more than 24 million customers, hold up to \$110 billion USD of combined assets under management, and are supported by more than 42,000 co-workers. Amalgamated Bank was one of eight new members announced today.

"I'm delighted to welcome these trailblazers to an independent network of banks and banking cooperative that put people before profit," said Dr. Marcos Eguiguren, Executive Director, GABV. "Each member brings a unique perspective and expertise on how to use finance to create positive economic, social and environmental impact for the individuals, organizations and communities they serve. Our research has proven year after year that there's profit and positive impact when banks connect deeply with customers and innovate to serve real needs and the real economy. We ask, 'Why isn't all banking done this way?' I look forward to connecting our latest members from Afghanistan, Ecuador, Nigeria, Palestine, Peru, Switzerland, and the USA, to an inspirational network of international banking experts and partners delivering on a mission that puts banking back in service of people, the economy and the environment."

Today's news comes just one day after Amalgamated Bank President and CEO Keith Mestrich was chosen to join the inaugural class of the Aspen Institute's Finance Leaders Fellowship—22 leaders who will participate in a two-year Fellowship designed to inspire them to take an active role in shaping the global finance industry's future through values-based leadership.

ATM Safety Tips

Amalgamated Bank is committed to your safety. The security department has installed the latest in surveillance cameras and DVR at all of our branches. This alone will not guarantee your safety. You need to be proactive in your approach to safety. Listed below are some safety recommendations that you should practice while using an ATM.

1. Use common sense and be aware of your surroundings before, during, and after you use an ATM.
2. If you observe or sense suspicious persons or circumstances, do not use the machine at that time.
3. Notice if anything looks unusual or suspicious about the ATM, indicating it might have been tampered with. If the ATM appears to have any attachments to the card slot or key pad, do not use it and inform the bank. If you suspect that the ATM has been tampered with, do not use the ATM and inform the bank.
4. If you have dipped your card starting a transaction and have to leave the ATM prior to completing the transaction, always press the cancel key and verify that the ATM comes back to the welcome screen. This will signal the end of your ATM session.
5. Be careful that no one can see you enter your PIN at the ATM. Use your body to "shield" the ATM keyboard as you enter your PIN into the ATM.
6. Close the entry door completely upon entering and exiting this facility, when card access was required to enter during non branch banking hours.
7. Do not permit entrance to any unknown person at any time, if card access was required to enter.
Place withdrawn cash securely upon your person before exiting the ATM facility.
8. If anyone follows you after you leave the ATM, go immediately to a heavily populated, well-lit area and call the police.
9. Never write your PIN on your ATM card.

Never give your card or pin to anyone to do a transaction for you.

These tips are meant to make you aware that, although rare, ATM crime can happen. Preventing such a crime must be a cooperative effort between you and your bank. As far as your security is concerned, you can never be too careful, too prepared, or too aware.
